Industrial University of Tyumen (IUT)

Established
in 1956

The Industrial University of Tyumen is one of the largest research-educational university complexes in Russia implementing the personnel training for the fuel-and-energy complex and other spheres of economy. The development of the University was closely connected with the development of oil and gas industry in West Siberia. Nowadays IUT is the acknowledged leader of engineering education, the Flagship University of Tyumen Region.

Our alumni are employed by the largest companies such as "Rosneft", "SIBUR", "Gazprom International", "Halliburton International", "KCA Deutag Drilling", "Baker Hughes", "Schlumberger", "LUKOIL Overseas Holding GmbH" and many others.
