PRE-UNIVERSITY COURSE “RUSSIAN AS FOREIGN LANGUAGE”

1 academic year		
2 376 hours	Start of the course	1st of October
6 months (intensive course)		
2 376 hours	Start of the course	1st of February

LIST OF DOCUMENTS FOR THE APPLICATION:

Perfect scan of the passport (full size)

- Scan of Education document (both sides) with transcript, legalization stamp and consulate translation into Russian
- Filled Application form
- Letter of guarantee
- HIV Certificate (valid 6 months)
- Prepayment 30% from the course price (500 \$)
(in case of visa refusal the prepayment will be returned)

TUITION FEE IN 2020/2021 ACADEMIC YEAR:

PRE-UNIVERSITY COURSE

RUSSIAN AS FOREIGN LANGUAGE (INCLUDING SPECIAL SUBJECTS SUCH AS MATHEMATICS, PHYSICS, IT)
119 350 rub/year

INTENSIVE COURSE:

103 150 rub/year

THE COST OF LIVING IN A HOSTEL

600 – 2000 rub/month

Apply here: orsio@tyuiu.ru

COURSES AND MAJORS, 2020

Name	Cost, roubles / year
HIGHER ENGINEERING SCHOOL	
Petroleum Engineering (Oil and Gas Wells Drilling; Design and Operation of Hydrocarbon Transportation, Storage and Trading Systems; Construction and Maintenance of Hydrocarbon Transportation, Storage and Trading Systems; Operation and Maintenance of Gas Production, Gas Condensate facilities and Underground Storage; Operation and Maintenance of Oil Production Facility; Operation and Maintenance of Technological Objects of Oil and Gas Production)	220 700
Oil and Gas Engineering and Technologies (Drilling of Oil and Gas Wells Technologies; Oil and Gas Field Development and Operation)	220 700

INSTITUTE OF TRANSPORT	
Technology of transport processes (Logistics and supply chain management)	197 100
Above-ground transport and technological complexes (Machines and equipment for emergency recovery, disaster management, fire extinguishing)	197 100
Operation of transport-technological machines and complexes (Automobile transport mechatronics, Auto business management and solutions)	197 100
Above-ground transport and technological means (Hoisting-and-conveying, construction, road machinery)	197 100
INSTITUTE OF GEOLOGY AND OIL AND GAS PRODUCTION	
Geology (Geohydrology and engineering geology)	180 000
Informatics and computer engineering (Automated information processing and management systems)	180 000
Information systems and technologies (Information systems and technologies in the geology and oil and gas industry)	180 000
Biotechnical systems and technologies (Biotechnical and medical apparatus and systems)	180 000
Automation of technological processes and production (Automation of technological processes and production in the oil and gas industry)	205 700
Applied geology (Geology of oil and gas, Groundwater exploration and engineering-geological survey)	180 000
Technology of geological exploration (Geophysical methods of prospecting and exploration of mineral deposits. Geophysical well logging. Geophysical Information Systems)	212 500
Management in technical systems	205 700
INSTITUTE OF INDUSTRIAL TECHNOLOGY AND ENGINEERING	
Energy and resource-saving processes in chemical technology, petrochemistry and biotechnology	180 000
Instrumentation (Instruments, quality control techniques and diagnostics)	180 000
Electrical power engineering and electrical engineering (Power supply, electric drive and automatics)	188 500
Mechanical engineering (Production, repair and operation techniques in mechanical engineering)	180 000
Design and technological support of machinery production (Robotics and flexible manufacturing system)	205 700
Chemical Technology (Chemical technology of oil and gas processing)	180 000
Technology of production and organization of public catering	180 000
Standardization and metrology	180 000
Materials science and engineering (material science and technology in the fuel and energy sector)	180 000
Innovatics (Industrial Innovation Management (Mechanical engineering)	180 000
INSTITUTE OF CONSTRUCTION	
Construction (Industrial and civil engineering. Production and application of building materials, products, structures. Heat and gas supply and ventilation. Water supply and sanitation. Car roads. Organization of investment and construction activities)	205 700
Construction of unique buildings and structures	188 500
Construction, exploitation, reconstruction and technical covering of roads, bridges and tunnels	188 500
Information systems and technologies	180 000
INSTITUTE OF SERVICE AND INDUSTRY MANAGEMENT	
Intellectual systems in the humanitarian segment (Development of intellectual systems in the humanitarian segment)	180 000
Applied geodesy	180 000
Applied mathematics and informatics (Applied programming and computer science)	162 500
Business informatics (eBusiness; Data Science)	162 500
Mathematics and computer science (Data science)	162 500
Advertising and public relations (New media)	162 500
Service (Human Resources and Legal Service; Economics of Service Enterprise and Organization of Post Order Management)	180 000

Hotel Business (Industry of Hospitality and Tourism)	180 000
Conflictology (Organizational and managerial conflicts)	162 500
System analysis and management (System analysis and life cycle management of complex systems)	180 000
Thermal Power Engineering and Heat Engineering	180 000
Technosphere safety (Environmental Engineering. Safety of technological processes and production)	197 100
Land management and cadastres (City Cadastre. Real Estate Cadastre)	212 500
Trading business (Process management and commercial design)	170 300
INSTITUTE OF ARCHITECTURE AND DESIGN	
Architecture (Architectural design, Architectural and town planning design)	196 000
Design of architectural environment (Urban environment design, Interior design)	196 000
Landscape architecture	180 000

MASTERS' COURSES, 2020 (FULL-TIME MODE OF STUDY)

Program code	Name	Cost roubles / year
09.04.02	Information systems and technologies (program "Digital transformation of the Region")	210 000
21.04.01	Petroleum engineering (program "Technologies for oil and gas transportation and storage in extreme natural and climatic conditions")	188 900
21.04.01	Petroleum engineering (program "Reliability and safety for hydrocarbons' transportation and storage objects")	188 900
21.04.01	Petroleum engineering (program "Oil and gas transportation and storage systems management")	188 900
23.04.01**	Technology of transport processes (program "Logistics and supply chain management")	210 000
23.04.01**	Technology of transport processes (program "Automobile business and safe operation of transport systems")	164 300
23.04.02**	Above-ground transport and technological complexes (Hoisting-and-conveying, construction, road machinery)	164 300
23.04.03**	Transport and technological complexes and machines exploitation (program "Technological Vehicle Operation")	164 300
05.04.01	Geology (program "Arctic and Subarctic resources")	164 300
09.04.01	Informatics and computer engineering (program "Automated information processing systems")	164 300
09.04.02	Information systems and technologies (program "Geo-information systems") in English	164 300
15.04.04	Automation of technological processes and production (program "Automation of technological processes in oil and gas production")	164 300
21.04.01	Petroleum engineering (program "Horizontal drilling")	188 900
21.04.01	Petroleum engineering (program "Diagnostics of technical conditions and reliability of oil and gas equipment")	188 900
21.04.01	Petroleum engineering (program "Development and exploitation of oil and gas fields")	188 900
21.04.01	Petroleum engineering (program "Modeling of development and exploitation of oil and gas fields")	188 900
21.04.01	Petroleum engineering (program "Oil and gas layers penetration technology")	188 900

21.04.01	Petroleum engineering (program "Technological solutions for well construction at fields with complex geological and technological conditions")	188 900
21.04.01	Petroleum engineering (program "Overhauling and wells repair")	188 900
21.04.01	Petroleum engineering (program "Offshore drilling") in English	220 000
21.04.01	Petroleum engineering (program "Geosteering") in English	220 000
21.04.01	Petroleum engineering (program "Oil and gas geology and geophysics")	188 900
27.04.04	Management in technical systems (program "Automated control systems")	164 300
13.04.02 ^{2*}	Electrical power engineering and electrical engineering (program "Power systems automation", "Intellectual electric power industry")	164 300
15.04.01	Mechanical engineering (program "Advanced technologies and innovations in mechanical engineering")	164 300
15.04.02	Technological machines and equipment (program "Innovative technologies. Quality management and engineering of industrial equipment and production")	164 300
18.04.01	Chemical technology(program "Chemical technology of fuel and gas")	164 300
19.04.04	Technology of products and catering arrangement (program "Food biotechnology")	164 300
22.04.01	Materials science and materials technology (program "Modern and perspective materials for fuel and energy complex")	164 300
08.04.01	Construction (program "Construction organization technologies")	164 300
08.04.01	Construction (program "Modern technology of construction of buildings and structures")	164 300
08.04.01	Construction (program "Water supply and water disposal for cities and industrial enterprises")	164 300
08.04.01	Construction (program "Intelligent systems for transport and road construction")	164 300
08.04.01	Construction (program "Design, construction and examination of highways and city streets")	164 300
08.04.01	Construction (program "Industrial and civil construction at oil production facilities")	164 300
08.04.01	Construction (program "Systems of heat and gas supply and ventilation, energy audit")	164 300
08.04.01	Construction (program "Theory and design of geotechnical structures")	164 300
08.04.01	Construction (program "Theory and design of buildings and structures")	164 300
08.04.01	Construction (program "Technology of construction materials, products and structures")	164 300
08.04.01	Construction (program "Formation of spatial systems in the town planning and land management activities")	164 300
08.04.01	Construction (program "Artificial constructions on transport, methods of their construction and operation")	164 300
09.04.02	Information systems and technologies (program "Intelligent technology "Smart City")	164 300
08.04.01	Construction (program "Investment planning and Estimated Pricing in Construction")	164 300
08.04.01	Construction (program "Construction organization management ")	164 300
13.04.01 ^{2*}	Thermal Power Engineering and Heat Engineering (program "Industrial power system")	164 300
13.04.01 ^{2*}	Thermal Power Engineering and Heat Engineering (program "Economics of industrial heat power enterprises")	164 300
20.04.01	Technospheric safety (program "Safety of technological processes and productions")	164 300
20.04.01	Technospheric safety (program "Protection and restoration of natural and man-made territories")	164 300

21.04.01	Petroleum engineering (program "Management in the petroleum engineering")	188 900
21.04.02	Land management and cadastres (program "Cadastral support for the functioning of the land and property complex")	188 900
21.04.02	Land management and cadastres (program "Organization and development of urbanized technologies")	188 900
27.04.06	Organization and Management of Science Absorbing Industries (Organizational and Economic Safety of Science Absorbing Industries; Entrepreneurship and Management of Oil and Gas Science Absorbing Industries)	164 300
38.04.06	Trading business (Logistics and Oil and Gas Trading)	149 800
38.04.09	State audit (program "Expertise and analysis in the field of public audit and control")	149 800
39.04.02	Social Work (Social and HR Audit for Manufacturing Enterprise)	149 800
42.04.01	Advertising and public relations (program "Advertising media business")	164 300
42.04.01	Advertising and public relations (program "Advertising media business") in English	210 000
43.04.03	Hotel Business (Experiential Marketing in Hospitality Industry)	149 800

* Resolution of the Government of the Russian Federation from 14 August 2013 N 697. "About On the approval of the list of specialties and areas of training, when enrolling in training for which applicants undergo compulsory preliminary medical examinations (examinations) in accordance with the procedure established at the conclusion of the employment contract or service contract for the relevant post or specialty".
